PROFILE

Full stack and mobile developer building production apps with React Native, React, TypeScript, Node.js and Python. Most recent work: a cross-platform React Native app with a Supabase (PostgreSQL) backend, row-level security, two-factor authentication and end-to-end tests in CI. Graduate in Philosophy from Universidade Federal Fluminense — I bring the same rigor of structured argumentation to how I decompose problems and write code. Fluent in English after seven years in the US; open to remote roles with companies in the US, Europe or Brazil.

TECHNICAL SKILLS

Languages	TypeScript · JavaScript (ES6+) · Python · SQL · HTML5 · CSS3
Mobile	React Native · Expo · iOS · Android
Frameworks & Libs	React · Node.js · Flask · Bootstrap · FullCalendar.js
Databases & Auth	PostgreSQL · Supabase (row-level security) · SQLite · Firebase Authentication · Cloud Firestore
APIs & Integration	REST APIs · CRUD · third-party API consumption
Testing & DevOps	Automated and end-to-end testing · GitHub Actions · CI/CD · Git · GitHub · Docker · Render
Methods & AI	Agile · project management fundamentals · GitHub Copilot · generative AI for development
Languages (spoken)	Portuguese (native) · English (fluent — 7 years in the US)

PROJECTS

DailyPet — Personal Project · Mobile (iOS & Android) *2026 – Present*

- Cross-platform app built with React Native, Expo and TypeScript where a whole family shares a pet's care routine — meals, walks and medicine — in real time.
- Supabase (PostgreSQL) backend with row-level security on every table, encrypted sensitive fields, two-factor authentication with recovery codes and biometric lock.
- Offline-first sync, vaccination card exported to PDF, medicine stock tracking, GPS walks and a lost-pet alert.
- 130+ automated database security tests and end-to-end tests running in CI with GitHub Actions. Launching on Google Play.

Plately — Personal Project · Full Stack Web *2026 – Present*

- Bilingual (EN/PT) recipe planner and organizer with secure accounts — Firebase Authentication (email/password and Google sign-in) and per-user data in Cloud Firestore protected by security rules.
- Weekly meal planner with recipe linking, a guided step-by-step cooking mode with screen wake-lock, automatic servings scaling and a shopping list grouped by category.
- Full account management (profile, dietary preferences, privacy, data export and deletion); built in vanilla JavaScript with no framework.
- Live: mariwlima.github.io/Plately · GitHub: github.com/Mariwlima/Plately

FamilyFlow — CS50x Final Project · Deployed on Render *2025*

- Full stack family organizer with role-based access control — adults manage events, tasks and shopping lists; children get a simplified interface.
- Built with Python, Flask and SQLite on the backend; JavaScript, Bootstrap and FullCalendar.js on the frontend.
- Live: familyflow-ib6n.onrender.com · GitHub: github.com/Mariwlima/FamilyFlow

EDUCATION

IBM Full Stack Software Developer — IBM · Professional Certificate (in progress) *2026 – Present*

- 15-course program covering React, Node.js, Python, Django, Flask, SQL, Docker, Kubernetes, OpenShift, CI/CD, microservices and cloud computing, including a module on generative AI for software development.

CS50's Web Programming with Python and JavaScript — HarvardX / edX · In progress *2026*

– Python and Django, SQL and data models, JavaScript, front-end interfaces, testing, CI/CD, scalability and security.

CS50's Introduction to Computer Science — HarvardX / edX · Certificate awarded *2025 – 2026*

– Algorithms, data structures, C, Python, SQL and web development, with a deployed final project.

Foundations of Project Management — Google / Coursera · Certificate *Nov 2026*

– Project life cycle, Waterfall and Agile methodologies, the project manager role, organizational structure and change management.

Bachelor's Degree in Philosophy — Universidade Federal Fluminense · Rio de Janeiro, Brazil *2014 – 2018*

– Emphasis on critical reading, structured argumentation and the analysis of complex systems of thought — a foundation for abstract problem decomposition and rigorous reasoning.

E X P E R I E N C E

Full Stack & Mobile Developer — Independent Projects · Remote *Mar 2026 – Present*

– Designing, building and shipping web and mobile products end to end — data modeling, security, UI, automated testing and deployment (DailyPet, Plately, FamilyFlow).

Au Pair — Cultural Care Au Pair · United States *Feb 2019 – Feb 2021*

– Two-year cultural exchange program with full immersion in the language and professional culture, resulting in complete English fluency.

– Managed schedules, logistics and activities with autonomy, communicating daily in English with an American family.

Receptionist / Administrative Assistant — Conselho Federal de Odontologia *Aug 2013 – Nov 2016*

– Front desk operations, calendar management, phone and email communication and visitor coordination in a structured corporate environment.

– Main point of contact for the public and partners, supporting day-to-day administrative routines.
